**Re: Declaration of Conformity of standard requirement for CE mark for all supplied products by Hohner Automazione srl**

Hohner Automazione s.r.l., in compliance with the standard 2004/108/CE which states the Electromagnetic Compatibility and 2006/95/CE which states the Electrical Safety, guarantees that its products: Electronic Cam Programmers, Visualizers, Incremental Encoders, Absolute Serial and Parallel Encoders, meet the requirements according to the relevant standard below mentioned

- EN-61000-6-2                      Generic Standards- Immunity for industrial environments
- EN-61000-6-4                      Generic Standards- Emission standard for industrial environments
- EN-55011                              Conducted and radiated emissions
- EN-61000-4-2                      Immunity to Electrostatic Discharges
- EN-61000-4-3                      Immunity to RF radiated fields
- EN-61000-4-4                      Immunity to Electrical fast transient / Burst
- EN-61000-4-5                      Immunity to surges
- EN-61000-4-6                      Immunity to conducted RF disturbances
- EN-61000-4-8                      Immunity to Power-Frequency Magnetic Fields
- EN-61000-4-11                      Voltage dips and interruptions

According to 2006/95/CE Directive the products are supplied complete with a "user's manual" and the CE mark on the products themselves to state the conformity with Standard Requirements.
